

Description

UMP-0815401 is a greenish shade blue powder pigment. The product belongs to the class of Copper-Phthalocyanine pigments (beta-modification).

Characteristics

- Colour Index P.B. 15:4
- Non-flocculating properties

Suggested Application

- Solvent based flexographic and gravure printing inks
- Designed for the use in combination with Nitrocellulose resins

Typical Properties

Light Fastness	7
Water Resistance	5
Acid Resistance	5
Alkali Resistance	5
Ethylacetate Resistance	5
Colour Strength vs reference [%]	95 – 105
Delta E vs Reference [CIELAB]	0.00 – 1.50

Scale for resistance properties: 1 = poor; 5 = excellent
Fastness/resistance properties tested on proof prints, full tone

Storage

The resin should be stored in original, unopened packaging in a cool and dry place. Typical storage temperatures should be between 15 °C and 30 °C.

Shelf Life

The product has a shelf life of at least 24 months from the date of manufacture.

Safety

When handling this product, please work according to the advice and information given in the safety data sheet and observe protective and workplace hygiene measures adequate for handling chemicals.
